

3.00-3.45PM

CEO TALK

The Changing Dynamics of Global Outsource Model

Mr. Harry Davoody, CEO of EAG

Mr. Harry Davoody is the CEO of Evans Analytical Group (EAG) based in Sunnyvale, California (www.eaglabs.com). EAG is the largest independent global provider of high-end test services offering Surface Analysis, Materials Characterization, and Semiconductor Release to Production (RTP) engineering support for fabless and OEM customers. Mr. Davoody's career spans three decades in diverse industries such as Semiconductor, Solid-State Lighting, Private Equity Investment, and Test Services. His talk will explore some recent outsourcing trends in market sectors that leverage technology. Also, he will share some perspectives on differences in Singaporean business approach vs. USA business style.
